About Us

For over 17 years, clients throughout the Caribbean region have relied on OB Sadoo Engineering Services Limited team to successfully complete projects and provide effective solutions. The team, comprised of more than 50 skilled professionals and tradespeople, specializes in full-service project delivery as a trusted civil engineering contractor known for efficiency and reliability. Our team and partners encompass engineers, architects, surveyors, planners, designers, construction managers, and contracting professionals.

We work together each day to foster a supportive, learning environment, encouraging people to strive for their personal best while meeting our client's goals. We remain passionate in the pursuit of our objectives, respect the importance of family, and recognize the benefits of a healthy and safe work environment

MISSION STATEMENT

To efficiently deliver projects by balancing time, quality, and cost for the mutual benefit of our clients and team.

OUR VALUES

Our success revolves around our team members and the community we serve

We prioritize the environment—every project aims to enhance both the community and its surroundings.

OUR VISION

To be the Caribbean's most reputable civil engineering construction firm.
